

our contributors

The FEI Research Foundation is grateful for the support of close to 1,000 donors in the 2000-2001 annual campaign. Our contributors include public and private corporations, FEI chapters and individuals from both the active and retired FEI membership ranks. We salute our many loyal supporters who contribute year after year, and we welcome the 116 first-time donors who joined our Contributors list in fiscal 2001.

Support from the financial management community is vital to our future.

In the listings below, an asterisk () indicates that the donor has contributed for at least five consecutive years. Two asterisks (**) indicate ten consecutive years of giving.*
